

Nov. 8-1945

Dear Mrs. Merrill-Wolff. —

Thank you very much for your post card and the booklet, "For Those Who Have Gone Part Way and are Still Seeking."

Several of my friends have been as deeply impressed with the high quality of Doctor Merrill-Wolff's "Pathways Through To Space" as I was upon reading this beautifully written record, and <sup>these friends</sup> are now ordering for themselves copies of this book through a local bookseller from the publisher.

On your postal card is listed "Consciousness Without an Object" (paper). 25¢, and I should like very much to have four copies of this publication (for which I enclose a dollar bill) so that I may send with Christmas cards to three friends, keeping one copy for myself.

If you would be so kind as to send one or two more of the booklets, "For Those Who Have Gone Part Way and are Still Seeking", I should greatly appreciate it.

Sincerely yours,  
(Mrs.) W. W. Witt

Greetings: -

I stand in sheer amazement  
in the presence of the lucidity with which  
you have articulated the Path to  
Understanding; and the structure  
thereof, as well. (Anent: Pathways")

The fullest flow of my  
supporting consciousness, in your efforts  
to represent it here, dwells with you.

Fraternally

Dear Friends -

I say "friends," for I feel a "kinship"  
with anyone who can write such a  
book as "Pathways Through To Space."  
This morning (Thanksgiving) I have  
been reading for hours. (This is my second  
reading of the book.)

As much as more ago Mrs. Thaff of  
this city loaned me this book - which was  
loaned to her by a friend in Tulsa. Since  
then I have my own copy & have told  
other friends who in turn have their  
copies. I cannot describe to you the  
effect of this book upon me - neither is it  
necessary - only to say I spend hours  
with it, - leave it alone & then return  
to ponder over the meaningful ex-  
pressions of beautiful poetry - and  
of the detailed experiences as you  
have found your way on the Path.

I find myself saying over and over  
again "True" - "Yes, oh so true". That  
I cannot help but write to you  
this morning. I've thought I have  
written many letters about this  
book.

Please tell me more about what  
you have written. I spend my summers  
at an old inn at the base of Longs Peak,  
in Colo. where I rent a log cabin, live  
alone (as I do here) and where I wander  
for miles, alone, enjoying the solitude  
of the hills. (I am the universe.)

I have enclosed a list of some of the  
books in my library so that you may  
know my reading interests. It is necessary  
for me to earn my living, so I have  
a Play School which is really my  
avocation. Since the passing on of my  
dear husband eleven years ago. I find  
a joy + peace working with little  
children - the field in which I was  
trained. However, my reading  
& thought world is the Thidore  
Gratefully yours,  
Emily S. Ahearn.
